

North Dakotans for
Affordable Healthcare

Your voice has been heard. Several North Dakotans just like you have organized a committee for the purposes of passing an initiated measure in 2010 to repeal the unfair North Dakota pharmacy ownership law.

Repealing this law will save you money on your prescription drugs by allowing many other pharmacies to compete for your business with lower prices.

It is a fact that prescription drug prices in North Dakota are too high because of a 1960's law that limits the type of stores that can sell prescription drugs. This law created a government protected monopoly that drives up drug costs and hurts North Dakotans.

North Dakota is the only state in the nation with a law creating government protected pharmacies. This law stifles competition among pharmacies and locks out new stores that would provide lower priced medication to North Dakota consumers.

Repealing the law that creates the drug monopolies in North Dakota will result in competition between pharmacies and bring down prescription drug prices.

In February the North Dakota State House of Representatives rejected a repeal of this unfair law. Within days of this vote in the legislature the people of North Dakota like you began calling for an initiated measure and a vote of the people to defeat this unfair law to lower our prescription drug prices.

You can help change the law and bring prescription drug prices down. Sign the attached "support" card and return it to North Dakotans for Lower Prescription Drug Prices with a \$4.00, \$14.00 or \$24.00 contribution.

Your financial contribution will help defray the costs of circulating petitions to place this measure on the ballot. Any amount of money that you can afford to give will be put toward changing this unfair law.

In the meantime visit us online at NDRx.org or call us at 701-323-9910 to learn where to sign a petition.

This is your opportunity to take the matter of high prescription drug prices into your own hands. You have the power to change this unfair law. You have the power to lower prescription prices. Please act today.

Sincerely,

Dr. Eric Thompson
Chairman
North Dakotans for Lower Prescription Drug Prices

YES! I want to help change the law in North Dakota to lower prescription drug prices! This unfair law needs to be changed.
